Education

Seth Jai Parkash Mukand Lal Institute Of Engineering And Technology   Aug 2019 – July 2023
B.Tech in Computer Science   *CGPA - 8.65*

Technical Skills

Languages: C++, JavaScript,TypeScript
Front-end Frameworks: React.js, Next.js, Redux, Tailwind, HTML, CSS
Back-end Frameworks: Hono, Node,js, Express, Payload CMS
Database: PostgreSQL,Mongo DB
UI Libraries: Shadcn, Radix UI, Material UI
Soft Skills: Googling, Leadership, Problem Solving

Experience

Convivity Technology Pvt Ltd   July 2023 – Present
Frontend Developer   *Mohali, Punjab*

- Proficient in React.js and Next.js frameworks, ensuring pixel-perfect UI replication and developing fast, optimized, and interactive web applications.
- Led and managed a team of developers, overseeing project execution, task delegation, and code reviews to ensure quality and efficiency.
- Built a full-fledged membership system from scratch, incorporating a complex pricing model and integrating multiple payment gateways like PayPal and Stripe.
- Developed a highly customizable quiz system with diverse question types and extensive features, enhancing the user experience and engagement.
- Integrated and optimized backend API functionalities, contributing to a scalable and robust system architecture.
- Designed and implemented a complete Payload CMS setup, streamlining content management and improving workflow efficiency.
- Actively collaborated with team members using Git for version control, ensuring seamless coordination and efficient code management.

Seth Jai Parkash Mukand Lal Institute Of Engineering and Technology   April 2022 – May 2022
HTML/CSS Instructor   *Radaur*

- Conducted a 4-week hands-on session on Web Development.
- Upskilled a batch of 125 students under the program.

Projects

Quiz Verse | Github | *Next.js, TailwindCSS, TypeScript, Zustand, Shadcn*   **Jan 2025**

- Developed an interactive quiz platform supporting multiple choice questions.
- Implemented real-time feedback on answers to enhance user engagement.
- Integrated score tracking and result display for performance evaluation.
- Designed a fully responsive UI to ensure seamless experience across devices.
- Utilized The Trivia API to fetch quiz questions dynamically.

Contact Management Application | Github | *ReactJS, JSON Server, Semantic UI*   **Oct 2022**

- Implemented using ReactJs with Hooks and Props concepts.
- Created a JSON server to store contact data and used CRUD operations to create, update, and delete contacts.
- Added a search box to filter out the result contacts.

Achievements

- Solved over 250 problems on GeeksforGeeks Practice.
- Conducted a 1-month hands-on session on Web Development.
- Won 2nd position in 'Sound Spirit' event.
- Awarded Best Visual Merchandising in 'ED MELA' event.
